

SEVEN WAYS TO CULTIVATE MORE *Self-compassion*

From writing notes of encouragement or love letters to yourself, to practicing loving-kindness meditation, there are countless paths to nurturing a more compassionate relationship with yourself. The following are seven simple ways you can begin practicing more self-compassion today.

1

BE KIND TO YOURSELF

Speak to yourself with gentle, encouraging words. Be patient with you when things feel challenging. Don't forget to acknowledge, and celebrate, when you do well. And go lightly when you don't.

2

PRACTICE MINDFULNESS

Start bringing non-judgmental awareness to your thoughts, emotions, and even the physical sensations you have. Notice when you're experiencing difficult feelings or experiencing negative self-talk. Practice observing all of these things with curiosity and acceptance.

3

HONOR YOUR FEELINGS

Allow yourself to feel "negative" emotions without judgment. Recognize that it's natural to experience a wide range of emotions, including sadness, anger, and frustration. Give yourself permission to experience these emotions. Then, consciously choose how you want to express them.

4

SET BETTER BOUNDARIES

Whether you're at home or at work, learn to say no when necessary. If boundaries are tricky for you, keep it simple: just be kind and direct. Commit to routinely preserving the time and energy you need to balance all you do with what you truly need to nourish your mind, body, and spirit.

5

PRACTICE MINDFULNESS

Make self-care a true priority by committing to regular activities that support your physical, emotional, mental, and spiritual well-being. Get into the habit of addressing the areas of your well-being that feel the neediest first.

6

QUIET YOUR INNER CRITIC

Start challenging your inner critic's snap judgments with self-compassionate responses. Try swapping negative thoughts with positive affirmations and regular reminders that you are valuable and worthy.

7

FORGIVE YOURSELF

It's exhausting to hold onto our past mistakes. Can you simply let them go? Try taking that same energy you use to ruminate on your past mistakes and focus it toward what you are trying to manifest and accomplish right here and right now.

That wraps up seven ways to get started practicing self-compassion. I hope you found it helpful! With practice, you can create a genuine shift in your mindset — one of self-kindness — even in the face of frustrating setbacks. Remember, a kinder mindset will help to uplift and support you in all you do, both personally and professionally.

Warmly,

MEET VALERIE MIRTO

Valerie has provided transformational coaching for women in business since 2000. With a focus on authenticity and Success Through Self-care™, she combines high-impact change strategies with mindfulness tools to help women create the lives they want to be living.
